Device Trainer Obligations

This qualification means that:

- QX/Eclasion recognises the trainer's expertise in device operation
- QX/Eclasion authorises the trainer to teach Beginners, Intermediate, Advanced (Level 1-2-3) in device principles, operation, technical interpretation.
- The trainer to use in promotional material that he/she holds an IMUNE International License Device Training (EPFX-SCIO-QXCI).
- To be listed on the IMUNE website under trainers.
- As have sufficient knowledge to enable students to pass the IMUNE International License Exams for Quantum Biofeedback.
- Use of specific Imune logos.

The License does not allow:

- Promotion as an IMUNE Trainer for expert modules such as homeopathy etc.- this requires a separate application.
- Any activity or representation that is not legal in your country.

Terms

It is part of the terms of issue that the trainer:

1. Ensures that the topics that are required by QX to be included are covered- topic list will be issued shortly for beginner, intermediate and advanced.
2. Provides feedback on courses:
 - a. Uses a scored student feedback form, to be completed by each student.
 - b. Submits a summary for each course
 - c. Submits a list of students and contact details for each course- IMUNE undertakes to use this information solely for IMUNE purposes (including mailings to students about IMUNE activities) and for no other business without your express permission.
 - d. Actively implements any changes in training that are indicated.
 - e. Do the on line Technical Exams over the course of the next year: this is to ensure that the trainer has all the technical knowledge required by QX/Eclasion to ensure that the trainer fully understands the program.

License Renewal

Licensed training will be reviewed by IMUNE on behalf of the manufacturer (as per contract requirements) including but not necessarily limited to the following:

1. Sole or co-training of minimum 6 days per year, minimum 21 students total.
2. Submission of information, including feedback forms for each training.

3. Satisfactory performance and/or corrective action, including conformity to manufacturer's guidelines for interpretation of system information (values etc.)
4. Conformity to ethics.
5. Proof of continuing education:
 - a. 3 day seminar attendance per year where the manufacturer or appointed representative presents device developments. (Preferably. Dr Nelson)
 - b. 20 hours continuing education related to device use (seminars, on line classes, documented self study, research submissions etc.)
 - c. 20 hours CEU outside device application (e.g. nutrition, homeopathy etc.)
