

QX-Eclosion Device Trainer Exam EPFX-SCIO-QXCI

(Operated by Imune under contract to QX-Eclosion Ltd.)

~~Issue 1.0 20th May 2006. Initial~~

~~Issue 2.0 17th June 2006.~~

Issue 3.0 19th June 2006.

1. It is possible to scroll thru the test, to go back and check and change answers.
2. The pass mark is 100%. Access to the test is available until you get 100%. After this access will be disabled. You do not need to apply again to have access.
3. Since it is time consuming to do this and requires perseverance that I think it is unreasonable to ask for you to take it again. So: if you achieve 95% then I will (on IMUNE's and not necessarily QX's behalf) accept that you send an email to admin@imune.net with
4. either
 - a. a corrected response and reason why you got it wrong.
 - b. an explanation of why you think your answer is correct

rather than have you take the whole test again.

5. The results and question answers are available immediately on submitting.
6. The browser buttons on your screen will be frozen: it is not possible to copy the questions.
7. The system records each access and each question access:
8. In accessing this test remember that you have submitted an ethics agreement.

You also need to

Apply for an IMUNE International License Quantum Biofeedback Therapist as per attached documents. As you are applying for Device Trainer Licensing it would be "inconsistent" if you did not fulfil the requirements for "grandfathering" into the therapist License.

The following documents relate:

- IL Prner_Thpist Grandfathering.pdf
- IMUNE Int Lic Pr-Th Gfather Application.doc
- License Q B Application.pdf (for information only)

We apologise that some information is duplicated- please copy and paste as appropriate.

Please also comment if you wish (with solid constructive suggestions for improving) on the process, forms etc.

Resource Support

The resource material is accessible on www.imune.net > Downloads > Device Trainer Information Resources

Internet Connection

If you do not have email connection issues then the documents can be sent by mail on CD.

The test has been tried on a 56K modem and whilst not ideal will work. It is not available on CD or in text form unless there are particular circumstances: if you have a sight disability unfortunately we can not increase the text size. If there are significant problems then you need to talk to us.

We can in very unusual circumstances email the questions in word format (listed alphabetically), you can increase the size, do them off line and get someone to enter the answers on line. The questions are however “shuffled” and you will need to allow time to match the questions when you fill them in on line.

Correspondence

ALL communication should be with John Kelsey
admin@imune.net
T: +44 (0)845 331 2536
F: +44 (0)870 460 1138
PO Box 13065, Solihull, England B91 9EH.

Please do not correspond with QX/Ecllosion or with Atrix (the software provider). It is John Kelsey’s responsibility.

Taking the Test

You are now enrolled in the examinations for:

QX-Ecllosion Device Trainer

HINT some questions have negatives: watch for these as this is a common error! e.g. The Earth does **not** exist. (Answer- False) rather than The Earth does exist.. (Answer- True)

DO THIS FIRST

If you struggle with on line stuff then read the document below first- its optional!

- Student Access_Trainer Exams.pdf
